## Reports 2018 and 2017 Financial Results

MADISON, Nebraska, February 12, 2019. Madison County Financial, Inc. (OTC Pink: MCBK) (“Company”), the parent holding company of Madison County Bank (“Bank”), today announced its results of operations for the three months and years ended December 31, 2018 and 2017.

The Company's net income for the three months ended December 31, 2018 was \$1.3 million or \$0.48 per diluted share, compared to net income of \$14,000 or \$0.01 per diluted share for the same period in 2017. The Company's net income for the year ended December 31, 2018 was \$5.6 million or \$2.04 per diluted share, compared to net income of \$3.5 million or \$1.27 per diluted share for the same period in 2017.

On December 22, 2017, the United States enacted tax reform legislation through the “Tax Cuts and Jobs Act Bill of 2017”, which significantly changed the existing U.S. tax laws, including a reduction in the corporate tax rate from 35% to 21%, as well as other changes. As a result of the enactment of the legislation, the Company incurred additional one-time income tax expense of \$1.3 million during the fourth quarter of 2017, primarily related to the remeasurement of certain deferred tax assets and liabilities.

Total assets increased \$22.0 million to \$411.3 million at December 31, 2018, compared to \$389.3 million at December 31, 2017, resulting from increases in investment securities classified as available for sale and net loans, offset in part by a decrease in investment securities classified as held to maturity. Effective June 19, 2017, the Bank converted to a Nebraska state-chartered member bank from a federal savings bank. As a state-chartered member bank, the Bank is now regulated by the Board of Governors of the Federal Reserve System and Nebraska Department of Banking and Finance. Federal Reserve Bank stock and Federal Home Loan Bank stock are required investments for institutions that are members of the Federal Reserve and Federal Home Loan Bank systems. The required investment in the common stock is based on a predetermined formula, carried at cost and evaluated for impairment.

As of December 31, 2018, there were 2,780,121 issued and outstanding shares of common stock, par value \$0.01 per share, and at February 11, 2019, the number of issued and outstanding shares of common stock remained at 2,780,121. The Bank was considered well-capitalized under applicable federal regulatory capital guidelines at December 31, 2018.

This release may contain forward-looking statements within the meaning of the federal securities laws.
